Product Features

The single rope system engages your entire body -- lift your legs, and you will feel it in your arms! The continuous feedback challenges the body to coordinate between core stability and limb mobility. Four loops are attached through pulleys to one rope. This integrates the action of the limbs and the torso in every movement.

A simple locking mechanism returns Reformer to standard functionality.

4 Tri Loops with enhanced hand and foot positions

Proprietary rope and pulley system

Specially designed "quiet ride" pulleys minimize noise

JYR-AR05 is a single-rope pulley system with attachment points for all four limbs. The patented system enables independent and simultaneous movement of both arms and legs. Users experience constant proprioceptive feedback, facilitating full-body integration and stronger core activation.

Support free customization of leather color and logo.

Package Size	2625*820*620mm

Product Features

The Elevated model is 16.25 in (41.3 cm) high from the floor (6.25 in/15.8 cm higher than the non-Elevated model), increasing accessibility and comfort, and making it ideal for people with injuries or mobility issues.

The semi-elevated Pilates core bed is the most widely used special equipment in Pilates training. It uses Carriage glides over sleek and rigid C-channel aluminum rails using a patented rolling mechanism for a smooth, friction-free ride

Fully-adjustable for perfect comfort and optimal performance

6 Carriage stopper positions

4 Footbar positions

3 Gearbar positions

3 Headrest positions

Robust and adjustable four-position footbar drops easily into cradles to regulate hip and knee flexion

Wooden standing platform and pommel-style shoulder rests support a wide range of body weights.

Support free customization of leather color and logo.

Item	JYR-ARC03
Name	Aluminum Alloy with Tower
Material	Aluminum Alloy
Length	2600mm
Width	740mm
Height	1880mm
Net Weight	200kg
Gross Weight	185kg
Box Size	690*405*240mm
Jump board Size	800*520mm
Spring	Ordinary spring/Korean spring
Package Size	2625*820*620mm

Product Features

Spring resistance value: red: 45LB green: 30LB yellow: 30LB

Material: aluminum alloy

Slide rail: 303 stainless steel square tube

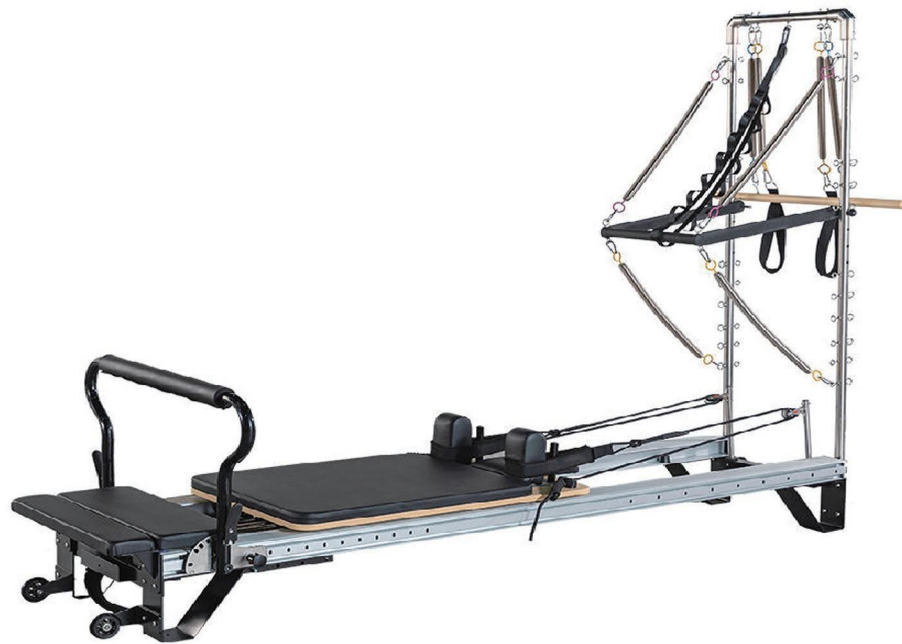

Pulley: PU polyurethane, imported bearing Leather: flame retardant and environmentally friendly PU

Sponge: high-quality sponge (non-regenerated cotton)

Can be customized according to customer requirements: steel material, leather material and color, frame material structure, etc.

Item	JYR-AR04
Name	Aluminium Alloy Core Reformer
Material	Aluminium
Length	2410mm
Width	620mm
Height	280mm
Net Weight	130kg
Gross Weight	150kg
Box Size	690*405*240mm
Jump board Size	520*400mm
Spring	Ordinary spring/Korean spring
Package Size	2440*665*525mm

Product Features

Aluminum pilates full bootbar mobile reformer

1. Full Aluminum alloy bracket
2. Iron feet with paint
3. Movable scroll wheel
4. Spring: 5 pcs piano wire spring, brand korean kiswire fatigue resistance 100,000 times
5. Mute universal pulley
6. Leather: durable Microfiber leather
7. High-strength fiber nylon rope
8. aluminum column
9. Kick bar surface: dip plastic

Item	JYR-ART04
Name	Aluminum Alloy with Tower
Material	Aluminium
Length	2410mm
Width	620mm
